UK natural wonders

1 Listen and read. 2.14

The UK has got a **coastline** of around 30,000 kilometres.

There are **hills, mountains, canyons, caves, rivers, valleys, beautiful lakes** and wonderful **beaches**.

On the Jurassic Coast, facing the English Channel, there is **Durdle Door**, a natural stone arch. It looks like a dinosaur drinking from the sea.

Here there are some of the oldest rocks on earth. In the rocks you can see fossils from the Triassic and Jurassic eras.
